Policy: University technology resources are provided to the University community to support its academic and administrative functions in accordance with its teaching, research, and service missions. These resources are intended to be used for the educational and business purposes of the University in compliance with this policy.

General Statement:
Technology resources (computing, networking, data and network services) are provided to the University community in order to fulfill the mission of the University.

While the University recognizes the importance of academic freedom and freedom of expression, as a public employer, the University also has a responsibility to comply with all federal and state laws and regulations, as well as the obligation to fulfill its mission.

Use of University owned technology to access resources other than those supporting the academic, administrative, educational, research and services missions of the University or for more than limited, responsible personal use conforming to this policy is prohibited.

Technology resources provided by the University are the property of the University. University owned technology is not intended to supersede the need for technology purchases for personal purposes.

As the University is a public entity, information in an electronic form may also be subject to disclosure under the Ohio Public Records Act to the same extent as if they existed on paper. All use is subject to the identification of each individual using technology resources (authentication).

Use of technology is subject to the requirements of legal and ethical behavior and is intended to promote a productive educational and work environment.
Policy:
All users of University owned technology resources (computing, networking and data), regardless of affiliation with the University, must:

- Use only those technology resources that they are authorized to use and use them only in the manner and to the extent authorized.
- Protect the confidentiality, integrity and availability of technology resources.
- Comply with all federal, Ohio, and other applicable law as well as applicable regulations, contracts, and licenses.
- Comply with all applicable policies at Youngstown State University.
- Respect the right of other technology users to be free from harassment or intimidation.
- Respect copyrights, intellectual-property rights, and ownership of files and passwords.
- Respect the privacy of other users and their accounts, regardless of whether those accounts are securely protected.
- Respect the finite capacity of technology resources and limit use so as not to consume an unreasonable amount of or abuse those resources or to interfere unreasonably with the activity of other users or to disrupt the authorized activities of the University.
- Limit personal use of University technology resources so that such use does not interfere with one’s responsibilities to the University.
- Not attempt to circumvent information technology security systems or the University Information Security Practices.
- Not use any radio spectrum space on any YSU-owned or YSU-occupied property, unless it is part of an approved wireless services deployment by the University.
- Not use technology resources for personal commercial purposes or for personal financial or other gain unless specifically approved by the University.
- Not state or imply that they speak on behalf of the University without authorization to do so.
- Not use University trademarks and logos without authorization to do so.

Scope:
This policy applies to all users and uses of University owned technology resources (including those acquired through grant processes) as well as to any non-YSU and/or remote technology devices while connected to the YSU network.

User Responsibilities:
- By accepting employment, being admitted as a student, or asking for any guest technology resource privileges, users implicitly agree to adhere to this policy and agree to the University Information Security Practices.
- Users are responsible for any activity performed using their usernames and passwords except when account security is compromised by actions beyond the user’s control.
• Users are responsible for any activity performed on University owned technology devices assigned to them except when the device is compromised by actions beyond the user's control.

• There is no expectation of personal privacy when using University resources. (See section below regarding privacy) Potential violations regarding use of technology resources should be reported to the appropriate supervisor(s) or manager(s).

• Users are responsible for ensuring that critical data are backed up and available to be restored for systems not administered by Information Systems Technology. This includes critical information contained on technology devices oriented to individual use (e.g., desktops, laptops, smart phones, and similar such devices).

• Users are responsible for maintaining data in compliance with the University records retention plan.

• Users are responsible for ensuring that sensitive information to which they have access is guarded against theft. (See the Sensitive Information Policy Guidebook Policy #4012.01 for more information.)

• Personal use of computing resources not otherwise addressed in this policy or these procedures will generally be permitted if such use does not consume a significant amount of resources, does not interfere with the performance of an individual's job or other University responsibilities, and is otherwise in compliance with University policies.

No Expectation of Privacy:
The University does not routinely monitor specific individual end-user usage of its technology resources. However, the University does routinely monitor technology resource usage in the normal operations and maintenance of the University's computing, network and data resources. This monitoring includes the caching and backing up of data and communications, the logging of activity, the monitoring of general usage patterns, the scanning of systems and networks for anomalies and vulnerabilities, the filtering of malicious traffic, and other activities that are necessary for the rapid and efficient delivery of services. Technology users should be aware that there is no expectation of privacy associated with the use of University technology resources.

When authorized by the Office of the General Counsel, the University may also specifically monitor the activity and accounts of individual end-users of University technology resources, including login sessions, file systems and communications.

When authorized by the appropriate University Executive (President or Vice President), the University may access end-user accounts, files, or communications used for University business when needed by a supervisor or assigned personnel for University business and the end-user is unavailable.

The University, in its discretion, may disclose the results of any such general or individual monitoring, including the contents and records of individual communications, to appropriate University personnel, student conduct, or law enforcement agencies, and may use those results in appropriate University disciplinary proceedings.
Personal Computing Devices:
- Personal computing devices (laptops, desktops, tablets, cellular phones, etc.) are restricted to the campus wireless network or the Residence Hall network.
- No personal computing devices will be allowed to connect to the wired campus network (excluding the Residence Hall network).
- Personal computing devices must comply with University Information Security Practices when using the campus wireless network or other provided University technology resource.
- Personal computing devices used to conduct University business are subject to public records requests.
- Personal hubs, routers, switches, or wireless access points are prohibited from being connected to either the University’s wired or wireless network.

Security:
The University employs various measures (i.e., the University’s Information Security Practices) to protect the security of information technology resources and user accounts; however, users should be aware that the University cannot provide good security without user participation. Users should increase their technology security awareness and fully employ access restrictions for their accounts, including using strong passwords, guarding passwords diligently and changing passwords regularly to help safeguard their use of technology.

Additional Policy Ramifications:
Users must abide by all applicable restrictions whether or not they are built into the computing system, network, or information resource, and whether or not they can be circumvented by technical or other means. Individuals who engage in electronic communications with persons in other states or countries or on other systems or networks may also be subject to the laws of those states and countries and the rules and policies of those technology systems and information resources.

Examples of Unacceptable Use:
As a further aid to policy compliance, the following non-exhaustive list is provided of activities that are prohibited:

- Using technology resources to engage in fraud, defamatory, abusive, unethical, indecent, obscene, pornographic and/or unlawful activities is prohibited.
- Using technology resources to procure, solicit, or transmit material that is in violation of sexual, racial or other harassment or hostile workplace laws is prohibited.
- Any form of harassment by electronic means (e.g., email, web access, phone, paging), whether through language, content, frequency or size of messages is prohibited.
- Making fraudulent offers of products, items, or services using any University technology resource is prohibited.
- Using technology resources for unauthorized or inappropriate financial gain, unauthorized solicitation, or activities associated with a for-profit business, or engaging in an activity
that involves a conflict of interest. (Refer to 7001.01 – Conflicts of Interest, and 7005.01 – Solicitation and Distribution of Materials, Employees.)

- Creating or forwarding chain letters, Ponzi or other pyramid schemes is prohibited.
- Broadcasting of unsolicited mail or messages is prohibited. Examples include chain letters, virus hoaxes, spam mail, and other email schemes that may cause excessive network traffic. Sending large numbers of electronic mail messages for official University purposes necessitates following the University’s procedures for the electronic distribution of information.
- Sending junk mail or advertising material to individuals who did not specifically request such material (email spam) is prohibited.
- Violations of the rights of any person or company protected by copyright, trade secret, patent or other intellectual property, or similar laws or regulations, including but not limited to, the installation or distribution of pirated or other software products that are not appropriately licensed is prohibited.
- Unauthorized copying and downloading of copyrighted material including, but not limited to, digitization and distribution of photographs from magazines, books or other copyrighted sources, copyrighted music and films and the installation of any copyrighted software for which an active license has not been procured is prohibited.
- Circumventing user authentication or security of any host, network or account is prohibited. This includes but is not limited to monitoring by use of keylogging or session logging.
- Revealing your account password to others or allowing use of your account by others is prohibited. This prohibition extends to family, other household members, friends, and/or co-workers.
- Attempting to log on to another user’s account (secured or otherwise) is prohibited.
- Sending electronic communications in such a way that masks the source or makes it appear to come from another source is prohibited.
- Personal use beyond limited responsible use is prohibited.

Individual University staff may be exempted from these restrictions on a case-by-case basis (with written authorization according to the University’s Information Security Practices) in the course of performing legitimate job responsibilities.

Special procedures exist and must be followed to ensure that accounts for employees are secured with passwords known to only the account holder but may be changed at the request of the area supervisor and approved by the supervisor’s Vice President or the President.

Under no circumstances is an employee of Youngstown State University authorized to engage in any activity that is unethical or illegal under local, state or federal law while utilizing University-owned resources.
Enforcement:
The Office of the Chief Technology Officer may suspend and/or restrict either an individual’s or a device’s access to the University network resource if:

1. It is deemed necessary to maintain the security or functionality of the network resource.
2. It is deemed necessary to protect the University from potential liability.
3. The account, system, or device is believed to have been either compromised or is in violation of this policy.

The Office of the Chief Technology Officer must immediately report the enforcement action and the justification for the action to the Vice President of Student Affairs, Vice President for Finance and Administration, or Provost (or their designee) as applicable. The University may permanently suspend all technology access of anyone using the University network resource until due process has been completed by Student Conduct, employee administrative discipline, and/or law enforcement agencies.

Title of Policy: Hiring and Selection Process, Contracts and Compensation for Intercollegiate Athletic Coaches

Responsible Office/Division: Intercollegiate Athletics

Approving Officer: Vice President for Finance & Administration

Revision History: September 1999; September 2003; November 2010; October 2012

Resolution Number(s): YR 2000-19; YR 2004-15; YR 2011-61; YR 2013-

EFFECTIVE DATE: 

Next review: 2017

Policy: The University seeks to attract and retain highly qualified Intercollegiate Athletic Coaches. During the hiring process the University is committed to the principle of gender equity, equal opportunity and diversity in filling each coaching vacancy. The University also affirms the principle of merit-based salary adjustments that are directly associated with positive competitive results as evidenced by the performance evaluation. Additionally, periodic market surveys will be conducted for coaching positions to ensure that salaries remain competitive. Further, certain coaches as professional/administrative staff may be eligible for multiple year contracts of employment.

Parameters

General:

Intercollegiate Athletics coaches in all sports are in the University’s professional/administrative staff category.

Contracts for coaches of fall term sports other than football will terminate on January 31, contracts for football coaches will terminate on the last of February; contracts for coaches of winter sports (men’s and women’s basketball, swimming, and diving) will terminate on April 30, and contracts for spring term sports (baseball, softball, track, tennis, and golf) will terminate on June 30.
When it is in the best interest of the University, the President, upon the recommendation of the Executive Director of Intercollegiate Athletics, may present other appointment plans for specific coaches to the Internal Affairs Committee of the Board of Trustees.

**Hiring and Selection Process:**

1. Advertising to fill athletic coaching positions of the University will be done in a manner that will provide an opportunity for a diverse pool of candidates to apply. Regardless, expediency in posting and hiring is a requisite in filling coaching positions due to the unique nature of the coaching profession.

2. An individual will be selected from an applicant pool obtained as a result of a publicly posted position vacancy and a search process.

3. External consultants may be utilized during the process of searching, screening, and interviewing coaching candidates. Search committees will also be utilized.

4. Background checks will be conducted for the final preferred candidate as requested by the Department of Intercollegiate Athletics.

5. Contracts for Intercollegiate Athletics head coaches are negotiated at the time of the recruitment and selection process.

**Compensation:**

1. **Head Coaches.** Individual salary adjustments may exceed any Board-established cost of living adjustment (COLA). Unsuccessful competitive performance will affect salary adjustments that may result in an amount less than any Board established COLA or no salary increase for the future contract term. Any such salary adjustments will occur at the beginning of a new contract term. A “pool” of funds will be created utilizing the aggregate amount of any COLA increases that are to be allocated (including associated fringe amounts) for future distribution for competitively successful outcomes. A recommendation may be made periodically by the Executive Director of Intercollegiate Athletics to the President.

2. **Assistant Coaches.** For sports that utilize assistant coaches, the head coach, in consultation with the Executive Director of Intercollegiate Athletics, will have authority to allocate the “pool” of money budgeted for all assistant coaches in that sport at his/her discretion within the limitations of the “pool.” In years in which the amount of awarded merit increases is less than the amount allocated by the University, the balance (including associated fringe amounts) will be placed into the appropriate salary reserve account for
future merit increases or distribution during the search process for a new coaching staff. In years which the amount of the merit increases is greater than the pool, the funds will come from the salary reserve account. Board approved Gender Equity Plan or current operating budget line items will serve as additional resources for merit increases. The allocation may occur at the beginning of the contract period or July 1 annually. A recommendation will be made annually by the Executive Director of Intercollegiate Athletics to the President.

Procedures

General:

1. The term of the initial contract offered to a coach will be determined during the recruitment and selection process by the Executive Director of Intercollegiate Athletics in consultation with the President.

2. All head coaches are evaluated annually by the Executive Director of Intercollegiate Athletics, or designee, and contracts may be renewed through negotiation.

3. The term of a contract can be modified through the use of the regular appointment process.

4. All head coaches annually evaluate their assistants and submit their recommendations to the Executive Director of Intercollegiate Athletics.

Hiring and Selection:

The procedures that follow provide an overall structure for coaching position selections. It is recognized that these procedures may need to be adjusted to accommodate a particular situation.

1. The Executive Director of Intercollegiate Athletics, or his/her designee, in consultation with the hiring manager will, at a minimum, select at least a three member search committee to screen qualified candidates.

2. Postings will appear, at a minimum, on the YSU Athletics Department website. The posting will be open to receive applications for a minimum of seven calendar days, and applicants will apply by utilizing the PeopleAdmin on-line employment application.

3. A list of candidates who have self-identified will be requested from the Office of Equal Opportunity and Diversity. Candidates to be interviewed must possess the minimum qualifications for the position. It is anticipated that the successful candidate will have
qualifications in excess of the minimum. Justifications for not interviewing an applicant will include written rationale regarding any determination concerning the differences in qualifications for the candidates selected for interviews. Such assessments will be fair and will include consideration of the NCAA expectations related to both YSU's Gender Equity and Minority Opportunity plans.

4. Upon approval from the Office of Equal Opportunity and Diversity, the search committee will conduct reference checks and participate in the interview process. The hiring manager of the open position, in consultation with the Executive Director of Intercollegiate Athletics, will ultimately identify the candidate to be extended a preliminary offer, understanding that the Office of Human Resources will make the official offer upon receipt of a positive background check.

5. The Office of Human Resources shall submit background checks when requested by the Department of Intercollegiate Athletics for the final preferred candidate. Employment offers may be made contingent upon an acceptable background report to ensure that the hiring process is expedited.

6. Exceptions to the above selection process may be granted in special circumstances where departure offers demonstrable benefits to the University. A request for such an exception must be submitted in writing to the Chief Human Resources Officer and the Office of Equal Opportunity and Diversity for review and consideration. A request initiated by the Department of Intercollegiate Athletics, together with the Office of Human Resources and the Office of Equal Opportunity and Diversity, will be submitted to the President, for final approval.

Compensation:

1. **Head Coaches.** The performance evaluation process will be conducted at the end of each season by the Executive Director of Intercollegiate Athletics for each head coach. Determinations regarding merit increases, if any, will be based upon the outcome of the performance evaluation. Pre-determined competitive benchmarks will allow head coaches with competitively successful seasons to earn a salary increase in a subsequent contract.

2. **Assistant Coaches.** The performance evaluation process will be conducted at the end of each season by the head coach for each assistant coach. Determinations regarding merit increases, if any, will be based upon the outcome of the performance evaluation.

Policy: Students are eligible to be employed by the University according to State of Ohio and University regulations.

Purpose: These procedures are designed to create a fair and equitable process for employment of students on campus. All procedures are in compliance with Federal and State of Ohio law as well as Ohio Public Employment Retirement System guidelines.

Parameters:

- The Executive Director of Student Life is responsible for the approval and coordination of the process of employing all student employees except for those employees participating in the employment programs administered by the Graduate School (Graduate Assistants, Teaching Assistants, Research Assistants, etc.). Student employment, like all other employment, is administered by the Office of Human Resources.

- Students not employed under work-study may be employed through hourly student wages or a task-based stipend. In both categories, students are subject to the same eligibility requirements.

- To be eligible for employment under hourly student wages or task-based stipend during the fall or spring semesters, students must be currently enrolled for a minimum of one course and no less than three credits and be in good academic standing.

- To be employed during the summer semester, without current enrollment, the student must have been enrolled during the previous spring, be currently registered for the upcoming fall semester and be in good academic standing.
- Students who are employed during the summer, but not enrolled for a course, are required to participate in OPERS.

- Regulations regarding compliance with the Internal Revenue Service and OPERS are made available to students in the Office of Student Life.

- Relative to student employment, appointments to all positions and the effective appointment dates are made by the Office of Student Life.

**Procedures:**

1. All positions for student employment, including Federal work-study, are described in written position descriptions maintained in the Office of Student Life.

2. All available positions for student employment, including Federal work-study, are posted through the Office of Student Life.

3. Students interested in a posted position apply directly to the employing department or unit. That department or unit makes the offer of employment and submits the required documents for appointment to the position to the Office of Student Life.

4. Actual employment may begin only after these documents have been approved by the Office of Student Life.

5. Status as a student employee is continuous from the date of initial appointment until the student is terminated by the University. For purposes of this policy, a student who has not been enrolled for two consecutive semesters will be considered terminated, regardless of whether the student resigns. Once a student is hired as a “student employee,” that employment status will continue until the student ceases to be enrolled for two consecutive terms. Changing positions of employment or departments does not change one’s student employment status.

6. Concerns of student employees or those of their supervisor that cannot be resolved at the department or unit level may be referred to the Office of Student Life.
Title of Policy: Employment of Undergraduate Students (Other than Work-Study)

Responsible Division/Office: Student Life
Approving Officer: Vice President for Student Affairs

Policy: While the President has overall responsibility for the management of the University, the responsibility for decisions about the employment of personnel is delegated to the Provost and Vice Presidents. Each divisional executive officer is responsible for making personnel decisions within the described University procedures. Students are eligible to be employed by the University according to State of Ohio and University regulations.

Purpose: These procedures are designed to create a fair and equitable process for employment of undergraduate students on campus. All procedures are in compliance with Federal and State of Ohio law as well as Ohio Public Employment Retirement System guidelines.

Parameters:

- The Executive Director of Student Life is responsible for the administration approval and coordination of the process of employing all student employees except for those employees participating in the federal-work-study-program and the employment programs administered by the Graduate School (Graduate Assistants, Teaching Assistants, Research Assistants, etc.). Students who are employed during the summer, but not enrolled for a course, are required to participate in PERS.

Regulations regarding compliance with the Internal Revenue Service, and OPERS, and starting and ending dates of employment periods are made available to students maintained in the Office of Student Life and reviewed annually.

Relative to student employment, appointments to all positions and the effective appointment dates are made by the Office of Student Life.

Procedures:

5. Appointment to student employment is continuous through the academic year. Reappointment is necessary in accordance with regulations established by the Office of Student Life.
