Dear Campus Community,

We hope your Spring Semester is off to a good start.

This past November, the YSU-OEA released an outside study of the university's finances by Howard Bunsis, professor of accounting at Eastern Michigan University. While Professor Bunsis' study was generally fair and accurate, there were a number of assertions made that require clarification. Accordingly, the YSU administration has prepared a 30-minute response to provide greater clarity and context around some of the information presented in Professor Bunsis' report. The administration's response can be viewed here: YSU Response to the OEA-Bunsis Report.

Youngstown State University is financially strong today. In order to remain financially strong, difficult decisions are necessary to avoid a financial crisis in the future, which could otherwise happen if we fail to respond to the enrollment and demographic realities facing the university.

Sincerely,

Brien N. Smith
Provost and Vice President for Academic Affairs
