

2018-2019 Campus Education Plan

CCP Coordinator: please complete and submit with the student's application for students to take campus or online classes.

Youngstown State University (YSU), in compliance with Ohio's College Credit Plus (CCP) Program, and in cooperation with the school district, functions strictly as a facilitator for the prescribed academic needs of the student. YSU officials shall not assume responsibility for the academic advisement and course selection required to fulfill high school course requirements for graduation. Advisement to meet high school graduation and/or general high school credit requirements is determined by the school district.

STUDENT NAME _____

Entering Grade (Circle one): 7 8 9 10 11 12 School District: _____

Is the student also registering for CCP courses offered in the high school? Yes No

How many credit hours can the student enroll in with YSU over the academic year? (use formula below) _____
 Formula: $(30 - \text{# HS only courses} \times 3 = \text{_____}) = \text{_____ credit hours} - \text{_____ planned credit hours at other higher education institutions}$

Does the student qualify for honors courses (ACT Composite of 26 and 3.5 overall gpa)? Yes No

What semester(s) is the student taking classes on campus/online? Summer 18 Fall 18 Spring 19

Best time for student to take classes: Morning Afternoon Evening

What is the student eligible for? Level One only (student has not completed 15 credit hours of level one)
 Level One and Two (student has completed 15 credit hours of level one)

UNDER COLLEGE CREDIT PLUS, COURSES COUNT ON BOTH THE HIGH SCHOOL AND COLLEGE TRANSCRIPT.

Please review the student's high school transcript and check the course(s) on the next page s/he is interested in. In order to register for course(s), the student has to: **1.** Meet with an YSU academic advisor* and **2.** Register for the class during CCP orientation/registration. Course availability varies. A seat in either an online or campus course section is not guaranteed.

Specific college subjects still needed to graduate from HS (ex. English, Math, Science):

Check here if student has completed all HS graduation requirements and can enroll in courses as determined by his/her intended major. Student is advised into classes according to his/her major's curriculum sheet.

**Some courses require an ACT score, placement testing or have a course prerequisite. The YSU academic advisor reviews the courses the student can enroll in as listed on this form and advises the student accordingly.*

We have reviewed, discussed, and agreed upon college course options and how they apply to high school graduation requirements.

Student Signature: _____ Date: _____

Parent Signature: _____ Date: _____

Coordinator Signature: _____ Date: _____

CCP Course Selection for: _____ **School District:** _____

(Student First and Last Name)

The following represents popular courses taken by incoming college freshman. CCP students can register for any course they qualify for, including courses not listed below. Please visit the YSU Undergraduate Catalog (catalog.ysu.edu) for a complete course listing. Some courses require an ACT score, placement testing or have a course prerequisite. Checking off a course is not a seat guarantee, rather a guide for YSU Academic Advisors to assist the student in making course selections as it pertains to their intended college major. As a reminder, one three or more credit hour course (including optional labs for that course) equals one high school unit.

P=Placement required through ACT scores, university placement exams or course prerequisite.

The shaded courses are approved Level 1 courses. Visit ysu.edu/ccp for a complete list of Level 1 courses.

English:		Math (P):	
1550: Writing 1 (P) – 3 ch		1510: College Algebra – 4 ch
