Engineering & Mathematics

February 20, 2020

Dear STEM Students and Employers:

I would like to welcome you to the **Spring 2020 STEM Expo** at Youngstown State University! Our commitment is to fully engage employers, students, faculty and staff by offering new events and programs that will bridge the gap between the business community and Youngstown State University. The STEM Expo allows employers to visit our campus and recruit many of our talented students. This Expo has attracted companies from various industries, who will have the opportunity to meet our students as they showcase their academic achievements and job readiness.

We would like to thank all of you for your participation today and invite you to contact any of our staff members or volunteers if there is anything with which we can assist you. Our commitment is to help Youngstown State University College of STEM students succeed in the job market, and assisting employers in hiring quality candidates. We hope that you will join us in our quest. For additional information, visit us online at

<http://www.yсу.edu/academics/science-technology-engineering-mathematics>
or contact our STEM Professional Services Office at 330.941.2151.

Best regards,

Wim F.A. Steelant, PhD
Dean of Science, Technology, Engineering and Mathematics
Youngstown State University

Engineering Excellence For Over A Century - Start Your Career With Us!

A Great Place To Work!

- Full Time Opportunities
- Competitive Benefits
- Rewarding Environment

We have over 30+ Youngstown State Engineering Graduates currently employed at Butech Bliss and the number keeps growing! Join our team today!

“Could one of these Youngstown State Alumni be your mentor at Butech Bliss?”

At Butech Bliss we are the team working to find answers to the most challenging obstacles our customers face in the metals industry. We strive to create innovative solutions that allow our customer's to thrive and be highly competitive. With the dedication of over 285 employees, Butech Bliss offers unmatched technical leadership, continuous improvements in quality, and a diversified product portfolio to reach new customers and industries. Butech Bliss is able to achieve these objectives through the hiring and retention of talented people. Providing a rewarding environment in which our employees can succeed is important to us. Find out more about the opportunities for you to begin and grow your career with our company at www.ButechBliss.com.

FirstEnergy[®]

During and After the Expo

What do I do once I arrive?

- Check-in at the student registration table
- Wear nametag
- Pick up table assignment map, with the locations of all participating employers
- Have a drink of water before entering the event area
- Walk around and get a feel for your environment
- When you are ready, approach your targeted companies first
- Take a deep breath & be yourself!

How do I initiate communication and make a lasting impression?

- Approach the recruiter
- Make eye contact, smile, and relax
- Give a firm handshake and introduce yourself by your first and last name
- Use the recruiter's name and introduce yourself
- Tell the recruiter what type of position you are seeking or what your career goals/interests are
- When appropriate, display your knowledge of the company
- Be enthusiastic and have a positive attitude
- Answer all questions honestly
- Show your confidence
- Ask any questions you may have
- Offer a resume

How do I maintain communication?

- Ask for a business card from the recruiter
- Ask the recruiter if he/she knows anyone else to whom you could speak, or if he/she knows of any companies that might have openings
- Thank them for their time and information
- Shake their hand firmly
- Make notes for later review and follow-up

How do I follow-up with employers?

- Refer to your notes and previously gathered business cards
- Immediately send a thank-you note (within 48 hours) to each employer that interests you
- Remind them of how and where you met, your qualifications and your interests
- Send an extra copy of your resume
- Call the organization to make sure that your application is complete
- Check with STEM Professional Services to see if certain employers will be interviewing on campus
- Schedule a Mock Interview Session with STEM Professional Services to assist you in preparing for your professional interviews

Youngstown State University
College of Science, Technology, Engineering and Mathematics (STEM)

Spring 2019 STEM Expo Student Attendee Data

Youngstown State University College of Science, Technology, Engineering and Mathematics (STEM)

Figure 1. Student and Employer Attendance for WCBA & STEM Expo

In Fall 2012, the College of Science, Technology, Engineering & Mathematics (STEM) and Williamson College of Business Administration (WCBA) instrumented the first decentralized Expo from Career Services. The Colleges recruited employers who were seeking current students for internships and co-ops.

Figure 2. Student and Employer Attendance for STEM Expo in Kilcawley Center

In Fall 2014, STEM Professional Services conducted the first stand-alone STEM Expo for current students seeking internships and co-ops. During Fall 2016, STEM incorporated full-time permanent opportunities not only for current students, but also for alumni seeking a career change. Multiple employers attend from various locations from the U.S of America (local, region, state and national).

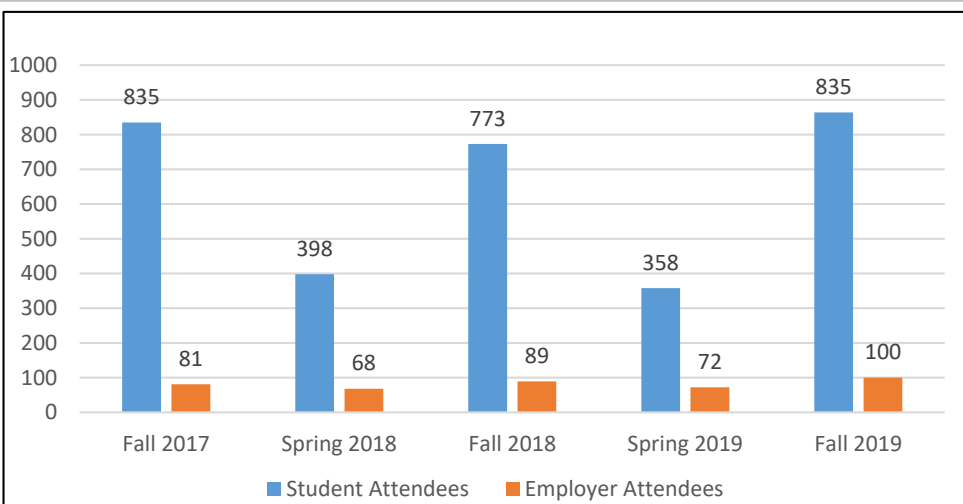

Figure 3. Student and Employer Attendance for STEM Expo in Stambaugh Stadium

Due to the high number of students and alumni in attendance in Fall 2016, STEM Professional Services moved the STEM Expo from Kilcawley Center to Stambaugh Stadium to accommodate high attendance numbers and allow for growth in employer attendance.

Erdman Anthony

Erdman Anthony Engineering Services is a diverse, multi-disciplinary firm. We're dedicated to developing superior infrastructure solutions by partnering with our clients—studying their unique situations and listening carefully to their needs. One of a handful of firms to implement a quality management system certified to the ISO 9001:2008 standard, Erdman Anthony pledges to meet expectations for quality results. Our dedication is reflected in positive customer feedback, a high level of repeat business, and the numerous awards our projects receive each year across a broad spectrum of disciplines. Our wide range of services offers a total engineering solution ... while our geographic coverage throughout the Eastern United States keeps us close at hand, providing local, focused project management. At Erdman Anthony, excellence is a commitment we live and breathe every day.

Your career holds plenty of potential. At Erdman Anthony, your opportunities for growth are numerous. Whether it's working on a multimillion-dollar project, continuing your education, pursuing registrations and certifications, honing your technical skills, or developing your interpersonal skills, we are committed to supporting you each step of the way. When you are a part of Erdman Anthony, possibilities for growth start with your talents, ambition, and drive to succeed. We'll help you get there.

GED Integrated Solutions

GED Integrated Solutions is the world leader in integrated window and door manufacturing systems and software solutions. We are a dynamic and growing company with a 40 year history of manufacturing products in Cleveland, Ohio. Our revolutionary Intercept® i-3 Warm Edge spacer frame production system changed, and is changing, the industry. Our commitment to innovation, including the use of robotics and automation, continues to address our customers' needs. This is proven by the fact that 18 of the top 20 window and door manufacturers utilize GED's equipment and software solutions. GED is also committed to our employees. We offer competitive wages and benefit packages. We also provide a complete fitness studio within our office for employee use at any time. GED is committed to Cleveland. Not only have we been in the Cleveland area for over 40 years; we have also recently built a brand new manufacturing and office facility in the Solon area.

Gener8tor

gener8tor is a nationally-ranked startup accelerator that invests in high-growth startups. Twice a year, we invest up to \$140K in each of five startups who receive a concierge experience during our 12-week accelerator program. gener8tor supports the growth of these startups through our network of experienced mentors, technologists, corporate partners, angel investors and venture capitalists. gBETA, one of gener8tor's programs, is a free, six-week accelerator for early-stage companies. Each program is capped at five teams, and requires no fees and no equity. gener8tor operates gBETA programs in Madison, Milwaukee, Beloit and Minneapolis. gALPHA, one of gener8tor's programs, is a three-week hackathon and accelerator hybrid. During the gALPHA program, individuals interested in entrepreneurship and new product development form teams, develop business models and find an outlet for their talent at their own startup, an existing startup or an established company.

PROFESSIONAL SERVICES

Haltec Corporation

Haltec Corporation is recognized worldwide as a leading manufacturer of specialty tire valve systems and pressure inflation solutions. Established in 1970, Haltec maintains its corporate headquarters, manufacturing, and distribution services in Ohio. As an ISO 9001/2000 certified company, Haltec Corporation's Quality Policy is to lead the tire valve systems industry by meeting or exceeding industry standards and customer requirements. Our on-site engineering & custom design is complemented with a state of the art machine shop, soldering, fabrication, custom-bending, and product assembly services. Haltec has refined a global network of distribution channels and continues to grow sales to its target markets. Quite simply, any size, shape quantity and design of an inflation system is the Haltec Corporation daily charge. Every product is designed to provide safe, efficient and accurate tire inflation. Whether that pressure is air or nitrogen, the psi in the tire needs to be accurate and the method of inflation must be simple and fast. Accurate PSI needs to be the primary objective of every tire inflation/service program.

HYNES INDUSTRIES

Hynes offers custom and standard roll formed steel shapes, slit coil and strip steel products, specialty wire and flat wire shapes as well as our proprietary slotted angle, FlexAngle. Then and Now The year was 1925. A half-gallon of milk cost 28 cents. Calvin Coolidge became the first U.S. president to have his inauguration broadcast on the radio. And in Youngstown, Ohio, a small steel brokerage firm started doing business as the Hynes Steel Products Company. It was the beginning of a company destined for success. Even back then, our founders were setting the tone for a company philosophy that values the highest level of quality and service, lasting relationships, on-time delivery and an ongoing commitment to innovation. For decades, Hynes Industries has been a leading supplier and processor of steel and non-ferrous metals for service centers, original equipment manufacturers, and fabricators throughout North America. Today, Hynes Industries is a full-service, custom metal fabricator specializing in multi-process manufacturing projects. Since our founding, Hynes has evolved from a dedicated roll forming operation into offering a full range of metal fabrication processes, engineering consulting services, inventory management, assembly and shipping. We help customers achieve greater efficiencies through innovative product design and alternative production solutions while serving as an all-in-one metal fabrication solution.

Naval Nuclear Laboratory (Operated by Fluor)

The Naval Nuclear Laboratory is operated for the U.S. Department of Energy (DOE) and U.S. Department of the Navy by Fluor Marine Propulsion, LLC (FMP), a wholly owned subsidiary of the Fluor Corporation. Naval Nuclear Laboratory personnel are FMP employees who work at four DOE facilities: Bettis Atomic Power Laboratory, Knolls Atomic Power Laboratory, Kenneth A. Kesselring Site, and Naval Reactors Facility, and at the U.S. Department of Defense-owned Nuclear Power Training Unit – Charleston. FMP employees also have an established presence at numerous shipyards and vendor locations. Since 1946, the Naval Nuclear Laboratory has developed advanced naval nuclear propulsion technology, provided technical support, and trained world-class nuclear operators to ensure the safe and reliable operation of our nation's submarine and aircraft carrier Fleets. The Naval Nuclear Laboratory is a national asset solely dedicated to the Naval Nuclear Propulsion Program. We rely on the dedication and innovation of our nearly 7,800 engineers, scientists, technicians, and support personnel. For more information and to view meaningful career opportunities, please visit navalnuclearlab.energy.gov.

NLMK USA

We at NLMK USA produce flat rolled steel that is essential to modern manufacturing. We supply high quality steel coils to the construction, automotive, pipe and tube, and heavy equipment sectors in the US. We are a leader in the markets we serve. In our product offerings, we go beyond just the generic by offering specialty and customized products. We work individually with our customers to develop new products and improve upon existing ones. NLMK USA has three production facilities in Pennsylvania and Indiana. NLMK Pennsylvania is the largest plant within NLMK USA. NLMK Pennsylvania operates as a conversion mill, turning slabs into hot-rolled and cold-rolled coils.

Novelis

Novelis is the world leader in aluminum rolling, producing an estimated 14 percent of the world's flat-rolled aluminum products. With industry-leading assets and technology, Novelis produces the highest-quality aluminum sheet and foil products for customers in high-value markets including automotive, transportation, packaging, construction and printing. Our customers include major brands such as Jaguar, Ford, BMW, Coca-Cola, Anheuser-Busch InBev, Rexam, Ball, Crown, ThyssenKrupp and others. In addition to being the world leader in aluminum rolling, Novelis is leading the industry with our sustainability and recycling efforts. Currently, Novelis recycles 40 billion used beverage cans annually – enough to circle the earth more than 100 times.

Pharmacy Data Management, Inc.

Pharmacy Data Management, Inc. (PDMI) was founded in Poland, Ohio, in 1984 and provides technology and other solutions for managing health through prescription drug programs for national and regional organizations. PDMI provides pharmacy claims processing and supporting services for pharmacy benefit management (PBM) and other companies in the pharmacy benefit industry. We receive pharmacy claims electronically from a switch (entity that routes prescription drug claims from the pharmacy to the plan/payer claims processor). The claims are approved or rejected by our proprietary claims processing (adjudication) system based on plan design elements of the client. A response is sent in 30 seconds or less to the switch which then routes the response to the pharmacy.

ScribeAmerica

ScribeAmerica is the largest international Medical Scribe company in the Healthcare industry; we are the nation's most frequently used and largest professional scribe training and management company, present in over 2,500 healthcare facilities, in 50 states and employing more than 15,000 scribes. We have successfully completed medical scribe programs across a wide spectrum of local environments; rural hospitals, urban hospitals, teaching facilities, private practices, and highly political organizations. These successes provide us with expertise that is unparalleled in the industry. Our medical scribes have been able to prove time and time again that they can master any electronic medical record system, while dramatically increasing physician productivity. We've even successfully pioneered the concept of using scribes to mitigate the decrease in efficiency during EHR implementation- the nation's first!

The Great Lakes Construction Co.

The Great Lakes Construction Co., with offices in Cincinnati and Hinckley, Ohio, has been a successful heavy/highway general contractor since 1948, completing hundreds of projects. Great Lakes' success and reputation has evolved from our focus on major heavy civil construction projects including excavation, piling, earthwork, utilities, energy, concrete foundations, structural concrete, concrete paving, environmental remediation, and general site work. Our employee-owned team - which is comprised heavily of Engineers and Construction graduates, including 19 Professional Engineers - oversees a field operations workforce of over 500 Union craftspeople. Great Lakes believes that co-op programs serve as a great foundation for the student's career path. A co-op experience allows the student to explore different opportunities while providing the employer a preview of the candidate's skills. Currently, over 25 former co-ops have accepted permanent positions in our company, including our current President, and Vice President of Operations.

The Salvation Army – Camp Allegheny

Camp Allegheny and its staff exist to model Christ through servant-ministry, loving relationships and unforgettable experiences. We are located on over 110 acres of fields, rivers, woods and a state-of-the-art facility just one hour north of Pittsburgh. Certified by the American Camp Association, the curriculum at Camp Allegheny is focused on Christian principles and promotes an awareness of God in nature and a relationship with Him. Working at Camp Allegheny will demand everything you've got — your time, your attention, your prayers. Our campers can be challenging. You will be stretched beyond your expectations physically, emotionally and spiritually. The bottom line, however, is that we serve children who desperately need to experience love and acceptance from adults, peers, and God. They need someone who will not give up on them.

Thorson • Baker + Associates

Thorson • Baker + Associates, Inc. is a mid-size multi-discipline consulting engineering firm specializing in institutional and commercial building design throughout the United States and Puerto Rico where we help build the future. We design the buildings where we work and play, schools and universities where our children learn, healthcare facilities for our continued well-being, elderly living and retirement communities for our senior citizens and the retail and entertainment complexes where we shop and enjoy our leisure. All this is with a concern for sustainability and the future of our environment. Join TBA and help us build the places where we live, learn and work in communities nationwide.

U.S. Department of State

As the lead U.S. foreign affairs agency, the U.S. Department of State represents the United States at more than 270 diplomatic locations around the world, including embassies, consulates, and missions to international organizations. The Department is responsible for selecting and hiring employees who accomplish America's mission of diplomacy at home and around the world, including Foreign Service Officers, Foreign Service Specialists and Civil Service professionals. The Department offers a number of programs, including internships, fellowships, and full time career opportunities (overseas, in Washington, D.C. and in other cities throughout the United States). All U.S. Department of State careers and internships require U.S. citizenship. The U.S. Department of State is an equal opportunity employer.

Whiting-Turner Contracting Company

Whiting-Turner provides construction management, general contracting, design-build and integrated project delivery services on projects small and large for a diverse group of customers. Successful markets include office and headquarters, healthcare, senior living, life sciences, microelectronics, mission critical, retail, higher education, K-12, industrial, warehouse and distribution, transportation, multi-family residential, mixed-use, urban redevelopment, hospitality, entertainment, cultural, religious and public sector. Since 1909, the firm has been guided by the principles of integrity, excellence and an unwavering dedication to customer delight. With headquarters in Baltimore and 31 regional offices nationwide, Whiting-Turner is currently ranked third in domestic building construction by Engineering News Record. The firm's over 3,000 salaried professionals provide depth of resources to service nationally and to build locally. The strength and stability of the firm is well documented. Whiting-Turner enjoys a 5A-1 Dun & Bradstreet rating – the only top 50 ENR domestic builder with this highest rating – and a bonding capacity of \$4 billion. The firm is financially independent, having not borrowed money since 1938.
