KEEP IT SIMPLE SMART

At our core, we believe that the environment where students learn matters. We pledge to engineer carpet that looks good, lasts long and minds your budget. Carpet that's there when you need it, easy to install and cost-effective to maintain. Built to perform in high-traffic areas and classroom settings alike, our carpet is super smart and functional underfoot. It's the guiding principle behind every flooring system we design.

Quick Ship has perfect timing

Installation over summer breaks and school holidays calls for durable collections arriving on the double. Our quick ship carpet comes in a variety of good-looking, long-lasting collections available within two weeks of order confirmation. How's that for a design rush?

Get performance broadloom and tile styles ASAP:

- 400+ broadloom products available up to 2,000 yards
- 150+ tile products available up to 2,500 yards, select tiles up to 5,000 yards
- 50 products available in stock for immediate shipment

To view products available on contract, visit <https://procure.ohio.gov/proc/viewContractsAwards.asp?contractID=33720>

The price of performance, lower than you think

Carpet costs only \$60 per 1000 ft² per year to maintain.

VCT costs \$172 per 1000 ft² per year to maintain.

The life-cycle cost of our carpet is less expensive than VCT. Factoring in installation and maintenance over the life of the carpet, it's a more cost-effective flooring solution.

"Life-cycle Cost Analysis for Floor Covering in School Facilities"
Institute of Inspection, Cleaning and Restoration Certification, 2002.

LokDots[™]

by Shaw

Meet your installation partner

LokDots[®] pressure sensitive adhesive makes EcoWorx[®] tile installation in your school faster, easier and more efficient. This non-toxic, odorless system eliminates the mess, curing time and odors of wet adhesives, allowing for immediate occupancy. And when you're ready to replace, LokDots stick to carpet backing for clean and easy removal during demolition.

97%
weight
difference

Traditional Adhesive vs. LokDots

A 35 pound bucket of adhesive or 1.1 pounds of LokDots?

Both install the same amount of carpet. But choosing LokDots reduces your shipping costs and increases installation efficiency.

Maintain, preserve and protect – you have our full support

To ensure the long life of your floor, Shaw Contract will work with you to customize a maintenance program and train your staff on proper care. We also provide the M.A.C. Advantage, your personalized online training program for facility managers and technicians. This comprehensive support tool gives guidance on carpet selection, cleaning science and technology. All at no extra charge.

Learn more about our pledge to durable design.
