Did you know that over one-third of Forbes 500 CEOs have liberal arts degrees? Graduates of liberal arts programs are immersed in ideas, both new and old. They cultivate critical and creative thinking processes. They develop vision and the skills to communicate that vision. They are empathetic and collaborative. As Albert Einstein put it, "The value of an education in liberal arts...is not the learning of many facts but the training of the mind to think something that cannot be learned in textbooks." Liberal arts majors become strong citizens, good neighbors, and leaders. Join us at this session to learn more about the specific liberal arts programs available at YSU and see short teaching demonstrations from several programs.

College Credit Plus (CCP) is a dual enrollment program for 7th–12th graders. Students earn college credit while taking classes at their high school, online or on campus. CCP may shorten the time it takes to earn a degree and provides a significant savings on future tuition.

This program is NO COST to most students!

**Student admission requirements:** 2.0 overall, unweighted GPA, 2.0 Core GPA, ACT Composite Score of 17 and meet at least one college readiness benchmark.

Note: Admission to CCP does not guarantee enrollment in any college course. Students meet course placement requirements through ACT/SAT or university placement exams.

Interested in starting to earn college credit while in high school? Sign up with your school counselor by April 1!

*Application days take place February or March at your school.*

To learn more, visit [www.ysu.edu/CCP](http://www.ysu.edu/CCP) or call 330-941-2447.
