

Higher Education

AUDIO VISUAL INNOVATIONS, INC. | SIGNAL PERFECTION, LTD.

AVI-SPL holds multiple cooperative and state contract agreements

Expanding the Traditional Classroom Walls

AVI-SPL designs and implements collaborative solutions that improve university school systems, research facilities, technical and community colleges. We are linking high schools with two year colleges; university school systems to high demand industry employers. What is your organization doing to support economic development through educational programs? Are your programs relevant to today's student population?
