How do I know what the test scores mean?

CPT is your English Placement Test (CPT = Composition Placement Test)

You can score between 11 and 44 on the CPT. Your score determines what writing class you can take.

- Score of 22 = Communication 1545: Communication Foundations
- Score of 44 = English 1550H: Writing I Honors
- Score of 33 = English 1550: Writing I
- Score of 22 = English 1549: Writing I with Support
- Score of 11 = You do not qualify to take writing classes with your score.

The line below your CPT score is the English class your score qualifies you for.

ALEKS PPL is your Math Placement Assessment Score

The last line of the table ("Lvl20-1510C..." in the sample table above) lists the math classes you qualify for. Please note that the Department of Mathematics can make adjustments to their placement scores at any time.

Below are the score ranges and corresponding levels for math and statistics courses commonly taken by CCP students:

ALEKS Score of 0-19 = Math Level 0-10

- MATH 2623C - Quantitative Reasoning with Support

ALEKS Score of 20-29 = Math Level 15

- MATH 2623 - Quantitative Reasoning

ALEKS Score of 30-45 = Math Level 20

ALEKS Score of 46-60 = Math Level 35
