

FIRST YEAR UNDETERMINED HHS MAJORS

Students should expect to take an English Composition course as well as general education courses that cover the spectrum of Health & Human Services disciplines. Students may also work with a Career & Academic Advisor to explore majors and careers that complement their personality, interests, and values through self-discovery assessments like MyPlan. Your advisor may recommend that you take an introductory course in Psychology or a first-year experience course introducing you to study in the Bitonte College of Health and Human Services.

The courses listed in each table below represent typical courses for a first year student in this major or majors. Each student's schedule may look different based upon the answers provided on the Pre-registration Survey, math and other course placements, and course availability. Students who have earned college credit for any of the courses below will work with an advisor to identify appropriate courses for the first semester.

Your academic advisor will make every effort to accommodate your schedule preferences; however, course availability will be limited in many cases, and may mean that have to take a course at a time that might not be what you would prefer. It is important to remember that your advisor has your long term goals in mind as you work toward pursuing your degree and career.

Math Placement = Level 10

| First Semester Courses | Required Degree Area | Credits |
|--|----------------------------------|--------------|
| English composition (based on placement) | General Education | 3-4 |
| PSYC 1560: General Psychology | HHS Majors and General Education | 3 |
| General Education course | General Education | 3 |
| General Education course | General Education | 3 |
| HAHS 1500: Introduction to the Bitonte College | HHS Major and General Education | 2 |
| | | 14-15 |
