YOUNGSTOWN STATE UNIVERSITY
February 9, 2021

Dear STEM Students and Employers:

I would like to welcome you to the Spring 2021 STEM Expo (February 9 & 10 and March 9 & 10) at Youngstown State University! Our commitment is to fully engage employers, students, faculty and staff by offering new events and programs that will bridge the gap between the business community and Youngstown State University. The STEM Expo allows employers to visit our campus and recruit many of our talented students. This Expo has attracted companies from various industries, who will have the opportunity to meet our students as they showcase their academic achievements and job readiness.

We would like to thank all of you for your participation this week and invite you to contact any of our staff members or volunteers if there is anything with which we can assist you. Our commitment is to help Youngstown State University College of STEM students succeed in the job market, and assisting employers in hiring quality candidates. We hope that you will join us in our quest. For additional information, visit us online at

http://www.ysu.edu/academics/science-technology-engineering-mathematics

or contact our STEM Careers, Internships & Co-ops at 330.941.2151.

Best regards,

Wim F.A. Steelant, PhD
Dean of Science, Technology, Engineering and Mathematics
Youngstown State University
“Could one of these Youngstown State Alumni be your mentor at Butech Bliss?”

At Butech Bliss our engineering team works to find answers to the most challenging obstacles our customers face in the metals industry. We strive to create innovative solutions that allow our customers to thrive and be highly competitive. With the dedication of over 285 employees, Butech Bliss offers unmatched technical leadership, continuous improvements in quality, and a diversified product portfolio to reach new customers and industries. Butech Bliss is able to achieve these objectives through the hiring and retention of talented people. Providing a rewarding environment in which our employees can succeed is important to us. Find out more about the opportunities for you to begin and grow your career at www.ButechBliss.com.

During and After the Expo

What do I do once I arrive?

- Check-in at the student registration table
- Wear nametag
- Have a drink of water before entering the event area
- Take a deep breath & be yourself!

How do I make a lasting impression?

- Make eye contact, smile, and relax
- Introduce yourself by your first and last name
- Use the recruiter’s name
- Tell the recruiter what type of position you are seeking or what your career goals/interests are
- When appropriate, display your knowledge of the company
- Be enthusiastic and have a positive attitude
- Answer all questions honestly
- Show your confidence
- Ask any questions you may have
- Let them know your resume is on Handshake

How do I maintain communication?

- Ask for the recruiter’s contact information
- Ask the recruiter if he/she knows anyone else to whom you could speak, or if he/she knows of any companies that might have openings
- Thank them for their time and information
- Make notes for later review and follow-up

How do I follow-up with employers?

- Refer to your notes and previously gathered contact information
- Immediately send a thank-you note (within 48 hours) to each employer that interests you
- Remind them of how and where you met, your qualifications and your interests
- Send a copy of your resume
- Call the organization to make sure that your application is complete
- Practice with biginterview to assist you in preparing for your professional interviews

BuTech Bliss

for their Spring 2021 sponsorship of career programming at YSU College of STEM
Handshake helps over 200,000 top employers easily find, recruit and hire the best college talent across the country.

Engineers, Accountants, Artists, Developers, Marketers, Agronomists, Chemists. They’re all on Handshake.

Handshake Highlights:

- Multi-School postings
  With just a few clicks, post your job across dozens of schools - for free.

- Powerful applicant filtering
  Narrow down potential hires to the best fits through our advanced filter options.

- Dedicated Employer Training & Support
  Handshake University will quick start your experience - with weekly webinars, videos, and help articles. Or contact our world-class support team for hands-on help.

- OCR & career fair management
  Schedule on-campus interviews, register for upcoming career fairs, or set up your own events. Then manage the logistics & payment all through Handshake.

Spring 2021 Virtual STEM Expo Student Survey

Please complete the survey using your cell phone camera app (not the YSU app). Your feedback is important to us.
In Fall 2012, the College of Science, Technology, Engineering & Mathematics (STEM) and Williamson College of Business Administration (WCBA) instrumented the first decentralized Expo from Career Services. The Colleges recruited employers who were seeking current students for internships and co-ops.

In Fall 2014, STEM Professional Services conducted the first stand-alone STEM Expo for current students seeking internships and co-ops. During Fall 2016, STEM incorporated full-time permanent opportunities not only for current students, but also for alumni seeking a career change. Multiple employers attend from various locations from the U.S of America (local, region, state and national).
Due to the high number of students and alumni in attendance in Fall 2016, STEM Professional Services moved the STEM Expo from Kilcawley Center to Stambaugh Stadium to accommodate high attendance numbers and allow for continued growth in employer attendance.

Due to COVID-19, STEM Careers, Internships & Co-ops held its first Virtual STEM Expo through Handshake during Fall 2020. Students and employers connected through video chat during 1:1 and group sessions. STEM Careers, Internships & Co-ops provided a space in Stambaugh Stadium with technology for students to conduct these sessions.

Ajax TOCCO Magnethermic® Corporation

Company Description:
Ajax TOCCO Magnethermic® Corporation (ATM) is a technology company headquartered in Warren, Ohio. The company has been in business for over a hundred years, supplying electric powered induction heating and melting equipment and technology to satisfy the needs of global manufacturers in the steel, gas, oil, non-ferrous metal, foundry, forging, and automotive industries. The company is owned by Park-Ohio Holdings Corporation (www.pkoh.com) of Cleveland, Ohio.

ATM has global operations with facilities in ten countries located across North America, Europe, and Asia. In North America, we have four large scale manufacturing facilities and eight regional service centers. In Europe, we have five facilities located in the United Kingdom, Belgium, Germany, and Italy. In Asia, we have facilities in China, India, and Japan.

ATM employs a global staff of approximately 1,200 employees, with an average of 20% engineers. The ATM team is comprised of engineers, technicians, and skilled tradespeople with a ‘can do’ attitude, excited to tackle opportunities that have been unthinkable with the conventional fuel-fired technology of the past. Our success and company growth is due to the many new advances in our technology and computer modeling. The direct transfer on energy makes electric induction technology attractive to customers, due to its high process efficiency and low carbon footprint. Electric induction equipment is known globally as a “Green Technology” suitable to replace fuel-fired furnaces with their undesirable environmental emission problems. Future growth prospects are excellent for the company and its employees, as manufacturing companies around the world rush to replace older, undesirable fuel-fired furnace equipment.

ATM consistently leads the way in developing new induction furnace technology. We continually provide new ideas to support existing customers and capture new markets. Company growth has been rapid, allowing us to provide advancement opportunities to our employees. Contact our Human Resources Department to discuss current opportunities within our company.

Naval Nuclear Laboratory | March

The Naval Nuclear Laboratory is a Prime Contractor solely dedicated to the Naval Nuclear Propulsion Program. We are a national asset. The Naval Nuclear Laboratory is the U.S. Navy’s trusted partner for superior nuclear propulsion technology, design, testing, training and support. We have cradle to grave responsibility from technology development through design to disposal. We have one mission: to develop the world’s best naval nuclear propulsion systems for all U.S. Navy submarines and aircraft carriers, training Sailors to operate them, and provide full lifecycle support to the Fleet. We offer a unique opportunity to contribute to a unique mission – to ensure the effectiveness and safety of our designs, to ensure the unfailing availability of these national assets, to train the Sailors that operate these propulsion plants, and to responsively and safely dispose of spent fuel. The Naval Nuclear Laboratory relies on the dedication and innovation of our nearly 8,000 engineers, scientists, technicians, and support personnel. Ultium Cells | February & March

Ultium Cells manufactures battery cells used in electric cars and other electric vehicles. We specialize in developing raw materials into pouch cells, which are ideally suited to automotive applications. Our goal is to increase battery performance while lowering cost to help facilitate the global transition to electric vehicles, all with safety as our top priority. Ultium Cells is a multinational joint venture between LG Chem, the world’s largest automotive cell manufacturer, and General Motors, one of the most enduring and successful names in the entire auto industry. The result of that collaboration is one of the largest, most technologically advanced battery cell manufacturing facilities in the world.

Whiting-Turner Contracting Company | March

Whiting-Turner provides construction management, general contracting, design-build and integrated project delivery services on projects small and large for a diverse group of customers. We constantly strive to exceed each client’s expectations through innovation, collaboration and best practices. With over 30 offices nationwide, Whiting-Turner has a strong presence throughout the country. More importantly, we recognize the value in community involvement and the benefits of strong local subcontractor relationships. We pride ourselves on familiarity with our local communities and our ability to give our clients the attention of a small business with the resources of a national corporation. Whiting-Turner’s growth and success is attributable to the belief in and strict adherence to the core values established over a century ago by our founder, G.W.C. Whiting, and exemplified by subsequent presidents Willard Hackerman and Timothy Regan.
