

Quan Tran, M.Ed.

Associate Director, Careers, Internships & Co-ops

Quan joined the office in July 2018 as Coordinator. In July 2024, Quan was promoted to Associate Director of STEM Careers, Internships & Co-ops where she oversees professional staff, daily operations of the office and conducts all reporting for STEM Professional Services. She continues to work with students to provide knowledge and tools students can use during college to help them actualize their career goals after college. As a former STEM student, she understands how meaningful it is to have someone to support you in navigating the vast amount of unique career opportunities an education in STEM can provide. Quan earned a Bachelor of Science in Chemistry in 2016 and Master of Education in College Student Personnel in 2018, both at Ohio University. On campus, Quan has taught courses such as STEM Professional Career Planning, Introduction to STEM Career Planning, Student Success Seminar and STEM First Year Orientation. She has also served as an AIM Mentor, Co-Advisor for the Pre-Genetic Counseling Club and on the STEM Social Media Committee. Quan is currently a member of professional organizations including CEIA, OCEA and NACE.
