

Grace Morris is an Academic Advisor for the College of STEM at Youngstown State University. Originally from Northwest Indiana, she earned a bachelor's degree in English from Purdue University and later earned a Master of Arts in Communication Studies and a Ph.D. in Curriculum and Instruction with a focus in Educational Technology from Kent State University. During her graduate studies, she served as a graduate assistant for the College of Education, Health, and Human Services, gaining experience as an instructor, researcher, editor, and conference administrator. In addition to her work in higher education, she has professional experience in academic publishing.

Passionate about student success, Grace was inspired to pursue her doctoral work after seeing the challenges students faced in online learning environments. She is proud to continue to support students through academic advising and to help them achieve their educational goals. Outside of work, she enjoys reading, playing video games, and visiting amusement parks around the world.
