SciENcv #3
Building your Current and Pending Support through SciENcv

It is HIGHLY recommended that you review the SciENcv #1 handout prior to engaging SciENcv to create your Current and Pending Support (C&P). If you have any questions or need assistance, please contact ORS.

Information regarding required NSF Current and Pending Support inclusions

Current and Pending Support includes all resources made available to an individual in support of and/or related to **ALL** of his/her research efforts. This includes other grant awards related and unrelated to the proposed project, In-Kind Support, any Pending grant proposals, and the proposal you will be submitting, regardless of whether or not they have monetary value. Information must be provided about all current and pending support, including this project, for ongoing projects, and for any proposals currently under consideration from whatever source. It does not matter if such support is provided through the proposing organization or is provided directly to the individual. Concurrent submission of a proposal to other organizations will not impact the review of your proposal by NSF, if disclosed. If the time commitment or dollar value is not readily ascertainable, reasonable estimates should be provided. If you have further questions about what needs to be included in your Current and Pending Support document, please contact the Office of Research Services or review the FAQ document provided by the NSF at https://www.nsf.gov/bfa/dias/policy/papp/pappg20_1/faqs_cps20_1.pdf

In-Kind Contribution Information

Current and Pending Support also includes in-kind contributions (such as office/laboratory space, equipment, supplies, employees, students). If the in-kind contributions are intended for use on the project being proposed to NSF, the information must be included as part of the Facilities, Equipment and Other Resources section of the proposal and need not be replicated in the individual's Current and Pending Support submission. In-kind contributions not intended for use on the project/proposal being proposed that have associated time obligations must be reported. If the time commitment or dollar value is not readily ascertainable, reasonable estimates should be provided.

NOTE THAT AS OF APRIL 2020, THE LANDING PAGE ONLY REFERENCES "CLICK HERE TO CREATE A NEW CV", EVEN THOUGH CLICKING ON THAT BUTTON WILL ALLOW YOU TO CREATE A CURRENT AND PENDING DOCUMENT.

Follow the steps detailed below to create your NSF and NIH approved C&P.

> *Review SciENcv Handout #1 - "Creating and Populating an Account" before starting your C&P.*

If you don't have an existing C&P

1 -Start by logging into your My NCBI account and navigating to your My NCBI Dashboard (shown below).

Current and Pending Support Summary

PROJECT/PROPOSAL INFORMATION

Current and Pending Support includes all resources made available to an individual in support of and/or related to all of his/her research efforts, regardless of whether or not they have monetary value. [1] Information must be provided about all current and pending support, including this project, for ongoing projects, and for any proposals currently under consideration from whatever source [2], irrespective of whether such support is provided through the proposing organization or is provided directly to the individual. Concurrent submission of a proposal to other organizations will not prejudice its review by NSF, if disclosed.[3]

[1]If the time commitment or dollar value is not readily ascertainable, reasonable estimates should be provided.

[2]For example, Federal, State, local, foreign, public or private foundations, non-profits, industrial or other commercial organizations or internal funds allocated toward specific projects.

[3]The Biological Sciences Directorate exception to this policy is delineated in PAPPG Chapter II.D.2.

IN-KIND CONTRIBUTION INFORMATION

Current and Pending Support also includes in-kind contributions (such as office/laboratory space, equipment, supplies, employees, students). If the in-kind contributions are intended for use on the project being proposed to NSF, the information must be included as part of the Facilities, Equipment and Other Resources section of the proposal and need not be replicated in the individual's Current and Pending Support submission. In-kind contributions not intended for use on the project/proposal being proposed that have associated time obligations must be reported below. If the time commitment or dollar value is not readily ascertainable, reasonable estimates should be provided.

You have not listed any support. [Add Project/Proposal] [Add In-Kind Contribution]

Select type of support from four options.

Current and Pending Support
