

OFFICE OF ACADEMIC AFFAIRS

Dear Colleagues,

Dealing with the transition to remote learning in the midst of the COVID-19 crisis has been a big challenge for the entire YSU community. Not only have you risen to the occasion, but many of you have gone far above and beyond in order to support your students and see them successfully complete the semester. YSU is grateful for your effort and dedication.

Many offices have worked hard to provide support and resources for you as instructors, but we know that the situation was not ideal. **We ask for your participation in an anonymous faculty feedback survey about your experiences this spring semester.** Your participation will help us learn where we were able to meet your instructional needs and where we can focus efforts in the future.

Please complete this [short survey](#) to add your voice and share how we can best support you and all instructors at YSU.

Thank you,

Brien N. Smith
Provost and Vice President for Academic Affairs.
